Ricardo A. Gonçalves

Full Stack Developer

São Paulo, Brazil | devandreotti@gmail.com | github.com/devAndreotti | linkedin.com/in/ricardo-andreotti

PROFESSIONAL SUMMARY

Full Stack Developer with a strong Computer Science foundation (UNIP) and hands-on experience delivering end-to-end web applications using React, TypeScript, Node.js, and applied AI. Focused on clean architecture, workflow automation, high performance, and continuous automated testing.

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer · Client Project 2025 - Present

- End-to-end full stack web application development using React, TypeScript, Node.js, and Tailwind CSS.
- Integration of applied artificial intelligence (LLMs) and operational process automation for clients.
- Engineering excellence: automated testing suites, accessibility standards, and CI/CD quality pipelines.

Youth Apprentice · Pulse Client Experts 2024 - 2025

- Technical maintenance and continuous updates for the company institutional website.
- Structured data management and workflow automation using advanced Microsoft Excel.
- Executed administrative routines, postal dispatch logistics, and internal policy compliance audits.

EDUCATION

B.S. in Computer Science · UNIP (Universidade Paulista) 2023 - 2027

Coursework in algorithms, data structures, systems architecture, computer networks, and software engineering.

Technical Diploma in Information Technology · Vocational Training 2021

Software engineering fundamentals, programming logic, web and mobile development with HTML, CSS, JavaScript, and React Native.

CERTIFICATIONS

CyberOps Associate · Cisco 2026

Cybersecurity operations, SOC monitoring, network traffic analysis, vulnerability assessment, and incident response.

TECHNICAL SKILLS

Languages & Frontend: React, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, WebGL2, Next.js, Vite

Backend & Databases: Node.js, NestJS, Python, SQL, PostgreSQL, Supabase, RESTful APIs

DevOps, Tools & Mobile: Docker, Git, CI/CD, GitHub Actions, Linux, React Native, Expo, n8n

KEY PROJECTS

Git Wizard Commander React, TypeScript, Tailwind CSS, Git

Interactive platform for visual, hands-on Git learning, simulating commit trees, branching workflows, and interactive challenges.

Gold Portfolio Analyzer React, TypeScript, Tailwind CSS, Recharts, Supabase

Smart portfolio optimization and analysis tool for the Brazilian market, calculating asset diversification and risk with interactive charts.

Cook App React Native, Expo, Supabase, TypeScript

Cross-platform mobile application (iOS/Android) for recipe recommendations based on pantry ingredients, backed by Supabase RPC.

Crumple WebGL2, TypeScript, GLSL

Zero-dependency WebGL2 graphics library (~35 KB) simulating paper unfolding physics with dynamic lighting, creases, and custom shaders.

Memory Apartment Godot 4, GDScript, Blender

First-person 3D psychological horror and investigation game, featuring dynamic environmental anomalies and custom 3D modeling.
